

CITY OF LACKAWANNA DEPARTMENT OF DEVELOPMENT

714 Ridge Road – Room 309
Lackawanna, NY 14218
Tel: (716) 827-6474 Fax: (716) 827-1866

May 8, 2018

As a component of the update for the City of Lackawanna's Local Waterfront Revitalization Plan the City is amending City Code Article III District Regulations, Chapter 230-17, Bethlehem Redevelopment Area Revised Zoning Designations and Permitted Uses with Full Environmental Assessment Review Form (FEAF). A Full Environmental Assessment Review is triggered due to the number of acres impacted by this initiative. City Council has been designated the lead agency for this review. This notice is issued in accordance with Environmental Conservation requirements and regulations.

A Negative Declaration/Notice of Determination of No Significant Effect on the Environment has been proposed based on the criteria and analyses contained in the State Environmental Quality Review Act (SEQRA) process. As lead agency, The Lackawanna City Council has determined that this proposed action will have no adverse effect on the environment. Summaries of the reasons supporting the determination include issues regarding impact on land, geological features, surface water, groundwater, flooding, air quality, plants and animals, agricultural, aesthetic, historic and archaeological resources, open space, recreation, transportation, energy infrastructure, noise, odor and lighting.

Attached for your review and any comments is a completed Parts 1 and 2 of the FEAF, proposed revised zoning provisions and language, along with a project location map (blue indicates light industrial, yellow indicates medium industrial, purple indicates heavy industrial, orange identifies the intermodal port, green identifies open space).

If you could please return any comments to me by June 11, 2018, it would be greatly appreciated. In the meantime, you can also contact me by telephone at 716-827-6421 or by email at development@lackny.com. Thank you in advance for your assistance on this matter.

Sincerely,

A handwritten signature in blue ink, reading "Drew Shapiro".

§ 230-17 Bethlehem Redevelopment Area - BRA.

A. Light Industry District (BRA-LI).

(1) Purpose.

- a. The primary purpose of the BRA Light Industry (BRA-LI) District is to create a quality setting to provide for a variety of employment opportunities. The district encourages the development of a mix of uses, such as offices, research and development facilities, wholesale, warehousing/distribution, and light manufacturing uses, with the intent of offering a wide range of job opportunities. This district is also designed to improve the City's tax base.
- b. Properties in the BRA-LI are visible from NYS Route 5 and/or the Hamburg Turnpike and help establish the image of the area. Development in this district is subject to higher design standards in order to present an attractive setting.

(2) Use regulations.

a. Permitted uses and structures:

1. Banking and commercial offices;
2. Laboratories, experimental, testing, research and development facilities;
3. Offices: corporate/regional headquarters, governmental, administrative and local service centers;
4. Office-based enterprises such as administrative, back office and telemarketing facilities;
5. Professional offices: real estate, insurance, medical and attorneys' offices in individual or common structures of at least 25,000 square feet;
6. Public utility service structure or facility;
7. Research and development offices and laboratories;
8. Trade and industrial schools (postsecondary);
9. Training facilities;
10. Indoor recreation;
11. Laboratories, experimental, testing, research and development facilities; and
12. Light manufacturing, assembly and fabrication, including:
 - (a) Electronic component and equipment assembly;
 - (b) Food and beverage products;
 - (c) Household items and furniture;
 - (d) Office equipment;
 - (e) Panels, sheets, tubes or rods;
 - (f) Pharmaceutical products, cosmetics or toiletries;
 - (g) Plastic and rubber components and finished products;
 - (h) Printing, publishing and engraving, including newspapers; and
 - (i) Recreation equipment or toys; and

b. Uses allowed with special permit:

1. Telecommunication facilities as a primary use, including towers, dishes and ancillary equipment;
2. Temporary structures for construction purposes;
3. Wholesale home and garden supply, and nurseries; and
4. Warehousing, lumberyards, storage and wholesale distribution facilities (no unenclosed outdoor storage of equipment or materials).

c. Permitted accessory uses and structures:

1. Accessory storage buildings;
2. Communication towers/dishes required for operation of primary use;
3. Employee services, such as cafeterias, credit unions and recreational facilities,

which are located within the primary structure and occupy no more than 10% of the developed floor area;

4. Fences, benches, walls and hedges;
 5. Off-street parking and loading facilities in conjunction with primary use (loading facilities shall be properly screened from view of NYS Route 5);
 6. Transit shelters;
 7. Satellite television receiving antenna;
 8. Signs (see § 230-41);
 9. Truck shipping and delivery facilities accessory to primary operation; and
 10. Warehouse and distribution facilities ancillary to the primary use and limited to a floor area not to exceed 35% of the gross floor area of the primary use.
 11. With a special use permit: alternative energy system apparatus, if attached to a primary structure and used for on-site operations (not utility scale).
- d. Prohibited uses. Per deed restrictions placed on the former Bethlehem Steel Corporation property, the following uses are prohibited in the BRA-LI:
1. Residential (all densities);
 2. Schools;
 3. Day-care facilities and nursery schools, or other facilities primarily used for multiple numbers of persons under the age of 18 years; and
 4. Wells for extraction of water, other than for monitoring, treating or remediation.
- e. Uses requiring site plan review. All changes in land use or expansion of existing land uses are subject to site plan review in accordance with Article VIII of this chapter.

(3) Site area requirements (see Section H. – Supplemental Regulations).

BRA-Light Industry Business (BRA-LI)	
Minimum lot size	5 acres; or 50 acres for PUD
Minimum lot frontage	300 feet
Maximum building height	36 feet or 3 stories
Minimum front yard	30 feet/ 50-foot setback required from NYS Route 5 right-of-way / Hamburg Turnpike right-of-way right-of-way
Minimum side yard	25 feet
Minimum rear yard	NA
Minimum buffer to Smokes Creek Greenway Corridor Overlay District boundary	50 feet
Minimum building coverage	15%
Maximum lot coverage	75%
Minimum landscaping coverage	25%
Minimum setback for parking from right-of-way	10 feet

B. Medium Industry District (BRA-MI).

(1) Purpose.

- a. The BRA-Medium Industry (BRA-MI) District has been created to establish a transitional zone between the BRA-LI district along NYS Route 5 and the Heavy Industry District (BRA-HI) to the interior of the site. This transitional zone is intended to encourage "non-smokestack" manufacturing and high employment uses to promote redevelopment, while remaining compatible with both the BRA-HI and BRA-LI Districts.

- b. The BRA-MI District is intended to utilize the site's size, history, environmental limitations and existing infrastructure to take advantage of one of the region's best-suited locations for developing new medium industrial uses. This district is designed to accommodate compatible industries on medium to large-sized lots in an organized manner to promote the efficient redevelopment of the property, while providing a transitional zone to separate heavy industrial uses from uses along NYS Route 5. The district is established to encourage the development of a broad range of employment opportunities within the City and to enhance the City's tax base.
 - c. For portions of the BRA-MI that front on NYS Route 5, screening, landscaping and/or higher design standards shall be used to promote an attractive image along NYS Route 5.
- (2) Use regulations.
- a. Permitted uses and structures:
 - 1. Laboratories, experimental, testing, research and development facilities;
 - 2. Offices: corporate/regional headquarters, governmental, administrative and local service centers;
 - 3. Office-based enterprises such as administration, back office and telemarketing facilities;
 - 4. Public utility service structure or facility;
 - 5. Research offices and laboratories;
 - 6. Enclosed bulk cargo storage and handling facilities;
 - 7. Indoor recycling plants;
 - 8. Manufacture, assembly and fabrication of the following and related products:
 - (a) Food and beverage products;
 - (b) Household items and furniture;
 - (c) Office equipment;
 - (d) Panels, sheets, tubes or rods;
 - (e) Pharmaceutical products, cosmetics or toiletries;
 - (f) Plastics and plastic components;
 - (g) Printing, publishing and engraving, including newspapers;
 - (h) Recreational equipment or toys;
 - (i) Aluminum and aluminum products;
 - (j) Automobile, marine and heavy equipment;
 - (k) Electrical and electronic equipment and appliances;
 - (l) Extruded products from plastics, metals and ceramics;
 - (m) Fabrication of metal products;
 - (n) Household and industrial chemical compounds;
 - (o) Machinery, including parts and components;
 - (p) Plastic and rubber components and finished products; and
 - (q) Steel refinishing; and
 - (r) Alternative energy components and assembly.
 - 9. Production and handling of fuel sources from organic natural resources.
 - b. Uses allowed with special use permit:
 - 1. Intermodal (uses allowed in the BRA-INT District);
 - 2. Motor freight facilities and depot;
 - 3. Outdoor storage and distribution facilities;
 - 4. Rail yards (limited to BRA-MI area south of Smokes Creek);
 - 5. Concrete production (batch plant); precast concrete and aggregate products, provided there is no outdoor storage of raw materials or reclaimed materials visible from the public right-of-way;
 - 6. Telecommunications towers as a primary use;
 - 7. Temporary structures for construction purposes;
 - 8. Warehousing, storage and wholesale distribution facilities; Noncommercial land filling of on-site remediation material; and

9. Solar energy production. [Added 6-16-2014; amended 9-16-2014]

c. Permitted accessory uses:

1. Accessory storage and maintenance buildings;
2. Communication towers/dishes required for operation of primary use;
3. Employee services such as cafeterias, credit unions and recreational facilities, which are located within the primary structure and occupy no more than 10% of the developed floor area;
4. Fences, benches, walls and hedges;
5. Off-street parking and loading facilities in conjunction with primary use (loading facilities shall be properly screened from view of NYS Route 5);
6. Outdoor storage of finished goods produced on-site (limited to 50% of site);
7. Rail sidings and service;
8. Satellite television receiving antenna, if attached to the primary structure;
9. Signs (see § 230-41),;
10. Truck shipping and delivery accessory to primary operation;
11. Warehouse and distribution facilities ancillary to the primary use, and limited to a floor area not to exceed 35% of the gross floor area of the primary use; and
12. With a special use permit: Alternative energy system apparatus, if attached to primary structure (not utility scale).

d. Prohibited uses. Per deed restrictions placed on the former Bethlehem Steel Corporation property, the following land uses are prohibited in the BRA-MI:

1. Residential (all densities);
2. Schools;
3. Day-care facilities and nursery schools, or other facilities primarily used for multiple numbers of persons under the age of 18 years; and
4. Wells for extraction of water, other than for monitoring, treating or remediation.

e. Uses requiring site plan approval. All new development projects, changes in land use, expansion of existing facilities and applications for special use permit are subject to site plan review in accordance with Article VIII of this chapter.

(3) Site area requirements. (see Section H. – Supplemental Regulations).

BRA-Medium Industry (BRA-MI)	
Minimum lot size	8 acres, or 50 acres for PUD
Minimum lot frontage	500 feet
Maximum building height	60 feet
Minimum front yard	50 feet
Minimum side yard	50 feet
Minimum rear yard	50 feet
Minimum buffer to Smokes Creek Greenway Corridor Overlay District boundary	50 feet
Minimum building coverage	18%
Maximum lot coverage (including parking)	80%
Minimum landscaping coverage	20%

(4) Supplemental requirements.

a. Outdoor storage and screening.

1. Screening or enclosures shall be of sufficient height and density to obstruct the view of the component or finished products stored on-site from NYS Route 5 and

- interior public roadways.
- 2. Bulk materials stored outdoors must be contained or controlled in such a manner as to not allow fugitive dust, blowing of bulk materials or odors migrating off premises and negatively affecting neighboring properties.
- 3. There shall be no outdoor storage of raw materials or reclaimed aggregate materials associated with concrete production.

C. Heavy Industry District (BRA-HI).

(1) Purpose.

- a. The BRA-Heavy Industry (BRA-HI) District has been designated to accommodate the redevelopment of the site for wind power, heavy industry and general manufacturing and production uses. The BRA-HI District allows for a continuation of uses that have shaped Lackawanna's industrial past. The intent is to utilize the site's size, history, environmental limitations and existing infrastructure to take advantage of one of the region's best-suited sites for developing new heavy industry.
- b. This district is intended to co-locate compatible industries on large lots in an organized manner to ensure the efficient development of the interior of the site. The district is established to encourage the development of a broad range of employment opportunities within the City and to enhance the City's tax base.

(2) Use regulations.

- a. Permitted uses and structures:
 - 1. All uses permitted by right in the BRA-MI District;
 - 2. Energy and fuel production, including but not limited to synthetic natural gas; coal gasification; biomass; solar; ethanol; and biodiesel; Manufacture, assembly and fabrication of alternative energy components;
 - 3. Noncommercial land treatment and land filling of on-site remediation material under consent order or permit as issued by the New York State Department of Environmental Conservation (NYSDEC) or the United States Environmental Protection Agency (USEPA); and
 - 4. Slag reclamation under "beneficial use" designation issued by the NYSDEC.
 - 5. Bulk materials stored outdoors must be contained or controlled in such a manner as to not allow fugitive dust, blowing of bulk materials or odors migrating off premises and negatively affecting neighboring properties.
- b. Uses allowed with special use permit:
 - 1. Commercial solid waste management facilities under permit or license issued by the NYSDEC;
 - 2. Coal and coke handling;
 - 3. Concrete production (batch plant), precast concrete and aggregate products;
 - 4. Electrical and power production and power facilities;
 - 5. Energy and fuel production, including but not limited to biomass; ethanol; and biodiesel;
 - 6. Extraction industries related to the mining of on-site materials;
 - 7. Manufacture and assembly of the following and related products:
 - (a) Cement, lime, gypsum, plaster of paris, and abrasives;
 - (b) Fabrication and finishing of steel or other metal products;
 - (c) Fertilizer, glue, gelatin, grain drying and feed; and
 - (d) Steel production.
 - 8. Manufacture or production of gases with approval of the Fire Department;
 - 9. Motor freight facilities and depot;
 - 10. Production or refining of petroleum-related products;
 - 11. Production of biomass-derived fuels;
 - 12. Warehouse, storage and distribution facilities;

13. Solar energy collection apparatus and power facilities;
14. Telecommunications facilities: towers, dishes and ancillary equipment; and
15. Wind energy conversion systems and wind farms [in accordance with Article XI, Wind Energy Conversion Systems (WECS), establishing WECS Overlay District].

c. Permitted accessory uses:

1. Accessory storage and maintenance buildings;
2. Alternative energy system apparatus for on-site operations, if attached to a primary structure;
3. Employee services such as cafeterias, credit unions and recreation facilities, which occupy no more than 10% of the developed floor area;
4. Fences, benches, walls and hedges;
5. Off-street parking and loading facilities;
6. Outdoor storage of equipment and bulk materials;
7. Rail sidings and service;
8. Satellite receiving antenna if attached to the primary structure; and
9. Signs (see § 230-41).

d. Prohibited uses. Per deed restrictions placed on the former Bethlehem Steel Corporation property, the following lands uses are prohibited in the BRA-HI:

1. Residential (all densities);
2. Schools;
3. Day-care facilities and nursery schools, or other primarily used for multiple numbers of persons under the age of 18 years; and
4. Wells for extraction of water, other than for monitoring, treating or remediation.

e. Uses requiring site plan approval. All changes in land use or expansion of existing land uses are subject to site plan review in accordance with Article VIII of this chapter.

(3) Site area requirements.

BRA-Heavy Industry (BRA-HI)	
Minimum lot size	20 acres individual site, or 50 acres for PUD development
Minimum lot frontage	500 feet
Maximum building height	100 feet
Minimum front yard (landscaped)	50 feet
Minimum side yard	50 feet
Minimum rear yard	50 feet
Minimum buffer to Smokes Creek Greenway Corridor Overlay District boundary	50 feet
Minimum building setback to the canal	75 feet
Minimum building coverage	10%
Maximum lot coverage	85%
Minimum open space	15%

D. Intermodal District (BRA-INT).

(1) Purpose.

- a. The intent of the BRA-Intermodal (BRA-INT) District is to encourage continued use and expansion of the BRA's existing shipping and rail infrastructure. The area within this district uniquely benefits from the location of the Gateway Trade Center, the Lackawanna Ship Canal and an extensive network of rail lines and open areas to move,

- temporarily store and transfer goods between ship, rail and truck transport.
- b. Activities permitted in this district shall facilitate the continuation of traditional water-related industrial uses and promote water-based and rail-based materials handling facilities on both sides of the Lackawanna Ship Canal.

(2) Use regulations.

- a. Permitted uses and structures:
 - 1. Bulk cargo storage and handling facilities and loading/unloading equipment, including cranes, conveyors, hoppers;
 - 2. Coal and coke handling;
 - 3. Intermodal facilities;
 - 4. Maritime terminals and activities related to the shipping industry;
 - 5. Motor freight facilities and operations;
 - 6. Rail yards; and
 - 7. Warehouse, storage and distribution facilities.
- b. Permitted accessory uses:
 - 1. Motor freight facilities for loading and unloading;
 - 2. Offices related to operations;
 - 3. Rail service lines and extensions.
- c. Prohibited uses. Per deed restrictions placed on the former Bethlehem Steel Corporation property, the following lands uses are prohibited in the BRA-INT District:
 - 1. Residential (all densities);
 - 2. Schools;
 - 3. Day-care facilities and nursery schools, or other primarily used for multiple numbers of persons under the age of 18 years; and
 - 4. Wells for extraction of water, other than for monitoring, treating or remediation.
- d. Uses requiring site plan approval. All changes in land use or expansion of existing land uses are subject to site plan review in accordance with § 230-71 of this chapter.

(3) Site area requirements.

BRA-Intermodal (BRA-INT)	
Minimum lot size	1 acre
Minimum setback to canal (for structures)	n.a.
Minimum lot frontage	n.a.
Maximum building height	100 feet
Minimum front yard	50 feet
Minimum side yard (buildings and outdoor storage of bulk materials)	50 feet
Minimum rear yard (buildings and outdoor storage of bulk materials)	50 feet
Minimum building coverage	n.a.
Maximum lot coverage	n.a.
Minimum landscaping coverage	n.a.

(4) Supplemental requirements.

- a. Outdoor storage and screening.
 - 1. Screening or enclosures shall be of sufficient height and density to obstruct the view of the component or finished products stored on-site from NYS Route 5 and interior public roadways.

2. Bulk materials stored outdoors must be contained or controlled in such a manner as to not allow fugitive dust or blowing of bulk materials or odors migrating off premises and negatively affecting neighboring properties.

E. Lakefront Open Space District (BRA-LOS).

- (1) Purpose. The intent of the BRA-Lakefront Open Space District (BRA-LOS) is to provide for habitat restoration and limited opportunities for passive public open space within the constraints of the site. This area shall include the establishment of a 100-foot vegetative buffer along the top of the bluff. Site conditions preclude public access along most of the shoreline, but scenic overlooks may be feasible near Smokes Creek.
- (2) Use regulations.
 - a. Permitted uses and structures:
 1. Trails;
 2. Open space; Overlooks, and;
 3. Parking areas to service the recreational trail and associated uses;
 - b. Nonpermitted uses. Per deed restrictions placed on the former Bethlehem Steel Corporation property, the following lands uses are prohibited in the Lakefront Open Space District :
 1. Permanent structures
 2. Residential (all densities);
 3. Schools;
 4. Day-care facilities and nursery schools, or other primarily used for multiple numbers of persons under the age of 18 years; and
 5. Wells for extraction of water, other than for monitoring, treating or remediation.
- (3) Supplemental requirements: A 100-foot setback from the top of the bluff shall be established. No uses or structures may be placed within the setback area.

F. Supplemental regulations: Design Standards.

- (1) Purpose. These supplemental regulations are intended to establish design standards for all development occurring in the portions of the Bethlehem Redevelopment Area immediately adjacent to NYS Route 5 and/or the Hamburg Turnpike (which are both segments of the Great Lakes Seaway Trail and National Scenic Byway). Properties visible from these roadways are part of the gateway into the City of Lackawanna and should be held to a higher design standard to maintain a quality image of this part of the City. It is the intent of this section to guide site development as it relates to building and parking orientation, general building design, landscaping, site lighting, signage and outdoor storage for all development that occurs in this area of the BRA.
- (2) Applicability. The following supplemental regulations and design guidelines shall apply to development sites located within the BRA that have property boundaries adjoining NYS Route 5 and/or the Hamburg Turnpike rights-of-way. These regulations apply to all areas zoned BRA-LI, and some property zoned BRA-MI.
- (3) Building and lot orientation. Unless otherwise specified, the following provisions are supplemental to the applicable regulations outlined in § 230-28, Building, siting, massing and form.
 - a. All lots shall have primary frontage along the internal public roadway, with access to buildings and their associated parking lots provided from the internal roadway.
 - b. For lots situated along NYS Route 5 or the Hamburg Turnpike, the portion of the building facing these roadways shall be considered a secondary frontage. No driveway access will be allowed onto NYS Route 5 or the Hamburg Turnpike with the issuance of

- a Special Use Permit.
 - c. The rear facades and side walls of buildings that face the Hamburg Turnpike shall be designed in a manner that is in keeping with an aesthetic image for this gateway area. Properties shall abide by design standards established in §230-20.
 - d. Primary building entrances shall be oriented towards the internal roadway with secondary entrances on the side or rear facing the parking area.
 - e. The subdivision of any BRA lots situated along NYS Route 5 shall result in sublots that are symmetrical in layout (square or rectangle); the creation of oddly shaped lots is discouraged.
 - f. Loading docks shall have access to the internal public roadway and shall be properly screened from view.
- (4) Parking and circulation. Unless otherwise specified, the following provisions are supplemental to the applicable existing regulations of § 230-36, Parking, loading and stacking:
- a. Parking and Pedestrian Circulation.
 1. Minimum off-street parking requirements for site development shall be as established pursuant to § 230-36B. Off-street parking requirements for uses not listed in § 230-36B shall be determined during site plan review.
 2. All parking areas shall be paved and striped with the surfaces in good condition and designed for proper drainage.
 3. No parking shall be permitted within eight feet of any portion of a building other than for loading area and access to the loading dock.
 4. The eight-foot area between parking lots and buildings shall be used for sidewalks, foundation plantings and other site amenities, such as benches, bike racks and lighting.
 5. Shared parking and shared access between parking lots is encouraged in order to reduce the total area dedicated to parking.
 6. Where parking areas abut parking areas on adjacent lots, a minimum five-foot vegetative buffer strip shall be installed to break up the monotony of the paved areas.
 7. Clearly marked pedestrian pathways shall be provided within the interior of parking lots to avoid large expanses of asphalt and to enhance pedestrian safety.
 8. As per § 230-34B(10), shade trees shall be provided in parking lots to ensure that within 15 years after the establishment of the lot at least 40% of the lot, calculated by using the diameter of the tree crown at 15 years, will be shaded. This can be accomplished with center islands and plantings along the parking lot edges.
 9. Areas that will be utilized by trucks shall be built to a standard that can effectively support the anticipated weight.
 - b. Sidewalks. Unless otherwise specified, the following provisions are supplemental to the applicable regulations of § 230-37, Pedestrian and Bicycle Facilities:
 1. Sidewalks measuring six feet in width shall be provided along the internal public roadway in the BRA-LI District.
 2. Interior sidewalks or striped cross walks shall be provided to ensure safe pedestrian travel between building and the sidewalk along the internal public roadway.
 3. Sidewalks shall be provided to connect parking areas located to the sides and rear of buildings with the front entrance.
 4. Pedestrian amenities such as benches and trash receptacles shall be provided where appropriate.

(5) Building character and materials.

a. Building scale and design.

1. Diversity in architectural style is encouraged; however, multiple buildings on the same site shall be designed to present a coordinated or compatible visual relationship.
2. Exterior building design features shall be encouraged to provide individual character to buildings. Such features may include decorative cornices, pilasters, columns, relief, medallions, dormers and eave breaks.
3. No building facade that faces a street shall have a blank, uninterrupted wall of more than 20 linear feet (40 feet for buildings greater than 120 feet in length). This can be achieved through the use of a combination of divisions or breaks in the materials, separate entrances and entry treatments, windows, vegetation or other visual design elements, colors and textures.
4. In multistory buildings, the ground floor shall be distinguished from the floors above. This can be achieved through a combination of an intermediate cornice line, a difference in building materials or detailing, an awning, trellis or arcade, special window lintels or brick corbels or quoins.
5. Architectural elements and features should be designed at a scale to be visible from the street.
6. Buildings that front more than one street shall have a front facade facing each street.
7. Rooftop screening shall be incorporated in the design of buildings to shield vents and rooftop-mounted equipment from view of the street.
8. Equipment that emits noise shall be appropriately screened to prevent sound from traveling beyond the property line.

b. Accessory structures.

1. Mobile office trailers, truck trailers, shipping containers or other storage trailers shall not be permitted for permanent use as office or production space, or for storage purposes.

c. Building materials.

1. No fewer than two exterior materials shall be utilized for building facades.
2. Building materials shall be comprised of materials of high quality and durability. Walls shall be clad in a mix of stone, brick, marble, metal paneling, cast concrete, vinyl siding, drivit and hardiboard, cement paneling or similar material.
3. All walls visible from a public right-of-way shall be clad with the same material required for the front façade of the building.
4. Roofing systems shall be comprised of materials appropriate to the architectural style and color palette of the building.
5. Deteriorated or damaged exterior building materials shall be repaired or replaced using appropriate materials.

d. Landscaping.

1. The entrance points to any site shall be well designed and landscaped as a unique element of each business.
2. Foundation landscaping shall consist of trees, shrubs, and flower beds.
3. Trees shall be planted along the street frontage every 30 feet on center.
4. Trees shall be provided in setback areas to ensure that within 15 years of establishment at least 60% of the setback, calculated as the diameter of the tree crown, will be shaded.
5. Landscaped islands, planted with trees and shrubs, shall be provided within parking areas for more than 30 vehicles to break up the monotony of pavement and provide shaded areas. One island shall be placed between every 15 parking spaces.

6. Landscaping shall be protected from impacts of snow clearance and storage.
 7. All on-site landscaping shall comply with additional standards found in § 230-34.
 8. All landscape features identified for site development as part of an approved site plan shall be properly maintained and, as necessary, replaced to ensure compliance with this approval.
- (6) Screening and outdoor storage.
- a. Screening. Unless otherwise specified, the following provisions are supplemental to the applicable regulations outlined in § 230-40, Screening:
 1. Parking areas situated between buildings and the NYS Route 5 corridor shall utilize a combination of berms, shrubs and trees to effectively screen these areas from view.
 2. Loading docks shall be effectively screened from view from both Route 5 and primary interior roadways through the use of fencing, partitions constructed of brick or other acceptable materials, berming, vegetation or any combination thereof.
 3. Dumpsters shall be properly screened from view with fencing or a masonry enclosure that exceeds the height of the trash receptacles contained therein.
 4. Dumpster enclosures shall be gated and gates shall be kept closed when not in use.
 5. Trash compactors and recycling bins shall be properly screened with dense vegetation, wood fencing or masonry enclosures that match the design of the building.
 - b. Mechanical and utility equipment.
 1. Ground mounted mechanical and utility equipment shall be properly screened from view with vegetative plantings or other measures to not be visible from NYS Route 5 and the interior public roadway.
 2. Roof mounted mechanical equipment shall be screened with parapet walls or other appropriate measures to not be visible from NYS Route 5 or the interior public roadway.
 - c. Outdoor storage. Outdoor storage or display of bulk materials, equipment, component products or finished products shall not be allowed in the BRA-LI District or portions of the BRA-MI District located along Route 5.
- (7) Utilities. All on-site utilities shall be designed and constructed in compliance with the provisions of § 230-44.
- (8) Lighting and signage.
- a. Lighting.
 1. All site lighting, both freestanding and fixtures attached to structures, shall be properly screened to prevent glare, uplighting and spill off the property.
 2. Night lighting must be provided for all pedestrian facilities.
 3. Bollard lighting can be used as accent lighting along pedestrian paths and to highlight pedestrian crossings in parking lots and across streets.
 4. Lighting within industrial sites for security and nighttime operation shall be limited and properly screened.
 5. Lighting on buildings to highlight architectural detail is permissible.
 6. Lighting shall comply with additional standards found in § 230-35.
 - b. Signage. Unless otherwise specified, the following guidelines are supplemental to the applicable existing regulations § 230-41, Signs:
 1. The size and color of signs shall complement the facade, scale and architectural style of the building.

2. Street numbers shall be prominently displayed at the main entrance to every business and be clearly visible from the street.
3. Exterior signs shall be limited to business identification and description; signs advertising products shall be prohibited.
4. External signage that is illuminated shall be properly controlled to prohibit excessive light that spills outward or upward.
5. Rooftop signs and billboards on buildings shall be prohibited.
6. Directional signage may be provided at key locations within a site that has more than one primary structure for wayfinding purposes.
7. No off-premises signs are permitted.

Full Environmental Assessment Form
Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

Name of Action or Project: <div style="text-align: center;">Bethlehem Redevelopment Area Zoning Revision</div>		
Project Location (describe, and attach a general location map): <div style="text-align: center;">1950 Hamburg Turnpike Lackawanna, NY 14218</div>		
Brief Description of Proposed Action (include purpose or need): <div style="text-align: center;">Change locations of light, medium and heavy industrial uses as well as permitted use and site area requirements</div>		
Name of Applicant/Sponsor: <div style="text-align: center;">City of Lackawanna</div>	Telephone: 716-827-6421	
	E-Mail: <div style="text-align: center;">development@lackny.com</div>	
Address: <div style="text-align: center;">714 Ridge Road, Room 309</div>		
City/PO: <div style="text-align: center;">Lackawanna</div>	State: <div style="text-align: center;">NY</div>	Zip Code: <div style="text-align: center;">14218</div>
Project Contact (if not same as sponsor; give name and title/role): <div style="text-align: center;">Drew Shapiro, Director of Development</div>	Telephone: same as above	
	E-Mail: same as above	
Address: <div style="text-align: center;">714 Ridge Road, Room 309</div>		
City/PO: <div style="text-align: center;">Lackawanna</div>	State: <div style="text-align: center;">NY</div>	Zip Code: <div style="text-align: center;">14218</div>
Property Owner (if not same as sponsor): <div style="text-align: center;">see attached sheets</div>	Telephone:	
	E-Mail:	
Address:		
City/PO:	State:	Zip Code:

B. Government Approvals

B. Government Approvals, Funding, or Sponsorship. ("Funding" includes grants, loans, tax relief, and any other forms of financial assistance.)

Government Entity	If Yes: Identify Agency and Approval(s) Required	Application Date (Actual or projected)
a. City Council, Town Board, <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No or Village Board of Trustees		June 2018
b. City, Town or Village <input type="checkbox"/> Yes <input type="checkbox"/> No Planning Board or Commission		
c. City Council, Town or <input type="checkbox"/> Yes <input type="checkbox"/> No Village Zoning Board of Appeals		
d. Other local agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
e. County agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
f. Regional agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
g. State agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
h. Federal agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
i. Coastal Resources.		
i. Is the project site within a Coastal Area, or the waterfront area of a Designated Inland Waterway?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
iii. Is the project site within a Coastal Erosion Hazard Area?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

C. Planning and Zoning

C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? ☒ Yes ☐ No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

C.2. Adopted land use plans.

a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? ☒ Yes ☐ No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? ☐ Yes ☒ No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) ☒ Yes ☐ No

If Yes, identify the plan(s):

It is located within the boundaries of the City's Brownfield Opportunity Area Step 3 Grants as well as the City's local Waterfront Revitalization Plan Site.

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? ☐ Yes ☐ No

If Yes, identify the plan(s):

There are two separate areas designated as open space within this site location

C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance.

☒ Yes ☐ No

If Yes, what is the zoning classification(s) including any applicable overlay district?

light, medium and heavy industrial, open space and intermodal port

b. Is the use permitted or allowed by a special or conditional use permit?

☒ Yes ☐ No

c. Is a zoning change requested as part of the proposed action?

☒ Yes ☐ No

If Yes,

i. What is the proposed new zoning for the site? similar zoning but area of location have changed

C.4. Existing community services.

a. In what school district is the project site located?

Lackawanna City School District

b. What police or other public protection forces serve the project site?

City of Lackawanna

c. Which fire protection and emergency medical services serve the project site?

City of Lackawanna and American Medical Response

d. What parks serve the project site?

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)?

Industrial and Commercial

b. a. Total acreage of the site of the proposed action?

1094 acres

b. Total acreage to be physically disturbed?

_____ acres

c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?

1094 acres

c. Is the proposed action an expansion of an existing project or use?

☐ Yes ☒ No

i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % _____ Units: _____

d. Is the proposed action a subdivision, or does it include a subdivision?

☐ Yes ☒ No

If Yes,

i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)

ii. Is a cluster/conservation layout proposed?

☐ Yes ☐ No

iii. Number of lots proposed? _____

iv. Minimum and maximum proposed lot sizes? Minimum _____ Maximum _____

e. Will proposed action be constructed in multiple phases?

☐ Yes ☒ No

i. If No, anticipated period of construction:

0 months

ii. If Yes:

• Total number of phases anticipated _____

• Anticipated commencement date of phase 1 (including demolition) _____ month _____ year

• Anticipated completion date of final phase _____ month _____ year

• Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: _____

f. Does the project include new residential uses?

☐ Yes ☒ No

If Yes, show numbers of units proposed.

	<u>One Family</u>	<u>Two Family</u>	<u>Three Family</u>	<u>Multiple Family (four or more)</u>
Initial Phase	_____	_____	_____	_____
At completion	_____	_____	_____	_____
of all phases	_____	_____	_____	_____

g. Does the proposed action include new non-residential construction (including expansions)?

☐ Yes ☒ No

If Yes,

- i. Total number of structures _____
- ii. Dimensions (in feet) of largest proposed structure: _____ height; _____ width; and _____ length
- iii. Approximate extent of building space to be heated or cooled: _____ square feet

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage?

☐ Yes ☒ No

If Yes,

- i. Purpose of the impoundment: _____
- ii. If a water impoundment, the principal source of the water: ☐ Ground water ☐ Surface water streams ☐ Other specify: _____
- iii. If other than water, identify the type of impounded/contained liquids and their source. _____

- iv. Approximate size of the proposed impoundment. Volume: _____ million gallons; surface area: _____ acres
- v. Dimensions of the proposed dam or impounding structure: _____ height; _____ length
- vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): _____

D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)

☐ Yes ☒ No

If Yes:

- i. What is the purpose of the excavation or dredging? _____
- ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
- Volume (specify tons or cubic yards): _____
 - Over what duration of time? _____
- iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them. _____

iv. Will there be onsite dewatering or processing of excavated materials?

☐ Yes ☒ No

If yes, describe. _____

- v. What is the total area to be dredged or excavated? _____ acres
- vi. What is the maximum area to be worked at any one time? _____ acres
- vii. What would be the maximum depth of excavation or dredging? _____ feet
- viii. Will the excavation require blasting? ☐ Yes ☒ No
- ix. Summarize site reclamation goals and plan: _____

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area?

☐ Yes ☒ No

If Yes:

- i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): _____

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments?

☐ Yes ☒ No

If Yes, describe:

iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation?

☐ Yes ☒ No

If Yes:

- acres of aquatic vegetation proposed to be removed:

- expected acreage of aquatic vegetation remaining after project completion:

- purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):

- proposed method of plant removal:

- if chemical/herbicide treatment will be used, specify product(s):

v. Describe any proposed reclamation/mitigation following disturbance:

c. Will the proposed action use, or create a new demand for water?

☐ Yes ☒ No

If Yes:

i. Total anticipated water usage/demand per day: _____ gallons/day

ii. Will the proposed action obtain water from an existing public water supply?

☐ Yes ☒ No

If Yes:

- Name of district or service area: City of Lackawanna

- Does the existing public water supply have capacity to serve the proposal?

☒ Yes ☐ No

- Is the project site in the existing district?

☐ Yes ☒ No

- Is expansion of the district needed?

☐ Yes ☒ No

- Do existing lines serve the project site?

☒ Yes ☐ No

iii. Will line extension within an existing district be necessary to supply the project?

If Yes:

☐ Yes ☒ No

- Describe extensions or capacity expansions proposed to serve this project:

- Source(s) of supply for the district:

iv. Is a new water supply district or service area proposed to be formed to serve the project site?

☐ Yes ☒ No

If Yes:

- Applicant/sponsor for new district:

- Date application submitted or anticipated:

- Proposed source(s) of supply for new district:

v. If a public water supply will not be used, describe plans to provide water supply for the project:

vi. If water supply will be from wells (public or private), maximum pumping capacity: _____ gallons/minute.

d. Will the proposed action generate liquid wastes?

☐ Yes ☒ No

If Yes:

i. Total anticipated liquid waste generation per day: _____ gallons/day

ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each):

iii. Will the proposed action use any existing public wastewater treatment facilities?

☒ Yes ☐ No

If Yes:

- Name of wastewater treatment plant to be used: Erie County Sewer District #6

- Name of district:

- Does the existing wastewater treatment plant have capacity to serve the project?

☒ Yes ☐ No

- Is the project site in the existing district?

☒ Yes ☐ No

- Is expansion of the district needed?

☐ Yes ☒ No

• Do existing sewer lines serve the project site? ☒ Yes ☐ No
 • Will line extension within an existing district be necessary to serve the project? ☐ Yes ☒ No
 If Yes:
 • Describe extensions or capacity expansions proposed to serve this project: _____

iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? ☐ Yes ☒ No
 If Yes:
 • Applicant/sponsor for new district: _____
 • Date application submitted or anticipated: _____
 • What is the receiving water for the wastewater discharge? _____
 v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):

vi. Describe any plans or designs to capture, recycle or reuse liquid waste: _____

e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction? ☐ Yes ☒ No
 If Yes:
 i. How much impervious surface will the project create in relation to total size of project parcel?
 _____ Square feet or _____ acres (impervious surface)
 _____ Square feet or _____ acres (parcel size)
 ii. Describe types of new point sources. _____

iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?

 • If to surface waters, identify receiving water bodies or wetlands: _____

 • Will stormwater runoff flow to adjacent properties? ☐ Yes ☒ No

iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? ☐ Yes ☒ No

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations? ☐ Yes ☒ No
 If Yes, identify:
 i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles) _____
 ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers) _____
 iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation) _____

g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit? ☐ Yes ☒ No
 If Yes:
 i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) ☐ Yes ☒ No
 ii. In addition to emissions as calculated in the application, the project will generate:
 • _____ Tons/year (short tons) of Carbon Dioxide (CO₂)
 • _____ Tons/year (short tons) of Nitrous Oxide (N₂O)
 • _____ Tons/year (short tons) of Perfluorocarbons (PFCs)
 • _____ Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
 • _____ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
 • _____ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? ☐ Yes ☒ No

If Yes:

i. Estimate methane generation in tons/year (metric): _____

ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): _____

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? ☐ Yes ☒ No

If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): _____

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? ☐ Yes ☒ No

If Yes:

i. When is the peak traffic expected (Check all that apply): ☐ Morning ☐ Evening ☐ Weekend
☐ Randomly between hours of _____ to _____.

ii. For commercial activities only, projected number of semi-trailer truck trips/day: _____

iii. Parking spaces: Existing _____ Proposed _____ Net increase/decrease _____

iv. Does the proposed action include any shared use parking? ☐ Yes ☐ No

v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: _____

vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? ☒ Yes ☐ No

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? ☐ Yes ☒ No

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? ☒ Yes ☐ No

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? ☐ Yes ☒ No

If Yes:

i. Estimate annual electricity demand during operation of the proposed action: _____

ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other): _____

iii. Will the proposed action require a new, or an upgrade to, an existing substation? ☐ Yes ☒ No

l. Hours of operation. Answer all items which apply.

<p>i. During Construction:</p> <ul style="list-style-type: none"> • Monday - Friday: _____ • Saturday: _____ • Sunday: _____ • Holidays: _____ 	<p>ii. During Operations:</p> <ul style="list-style-type: none"> • Monday - Friday: _____ • Saturday: _____ • Sunday: _____ • Holidays: _____
--	---

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? ☐ Yes ☒ No
If yes:
i. Provide details including sources, time of day and duration: _____

ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen? ☐ Yes ☒ No
Describe: _____

n.. Will the proposed action have outdoor lighting? ☐ Yes ☒ No
If yes:
i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures: _____

ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen? ☐ Yes ☒ No
Describe: _____

o. Does the proposed action have the potential to produce odors for more than one hour per day? ☐ Yes ☒ No
If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures: _____

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage? ☐ Yes ☒ No
If Yes:
i. Product(s) to be stored _____
ii. Volume(s) _____ per unit time _____ (e.g., month, year)
iii. Generally describe proposed storage facilities: _____

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? ☐ Yes ☒ No
If Yes:
i. Describe proposed treatment(s): _____

ii. Will the proposed action use Integrated Pest Management Practices? ☐ Yes ☒ No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? ☐ Yes ☒ No
If Yes:
i. Describe any solid waste(s) to be generated during construction or operation of the facility:
• Construction: _____ tons per _____ (unit of time)
• Operation : _____ tons per _____ (unit of time)
ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:
• Construction: _____
• Operation: _____

iii. Proposed disposal methods/facilities for solid waste generated on-site:
• Construction: _____
• Operation: _____

s. Does the proposed action include construction or modification of a solid waste management facility? ☐ Yes ☒ No

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): _____

ii. Anticipated rate of disposal/processing:

- _____ Tons/month, if transfer or other non-combustion/thermal treatment, or
- _____ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: _____ years

t. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? ☐ Yes ☒ No

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: _____

ii. Generally describe processes or activities involving hazardous wastes or constituents: _____

iii. Specify amount to be handled or generated _____ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: _____

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? ☐ Yes ☒ No

If Yes: provide name and location of facility: _____

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility: _____

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses.

i. Check all uses that occur on, adjoining and near the project site.

☐ Urban ☐ Industrial ☐ Commercial ☐ Residential (suburban) ☐ Rural (non-farm)

☐ Forest ☐ Agriculture ☐ Aquatic ☐ Other (specify): _____

ii. If mix of uses, generally describe: _____

b. Land uses and covertypes on the project site.

Land use or Covertype	Current Acreage	Acreage After Project Completion	Change (Acres +/-)
• Roads, buildings, and other paved or impervious surfaces	319	319	
• Forested	40	40	
• Meadows, grasslands or brushlands (non-agricultural, including abandoned agricultural)	75	75	
• Agricultural (includes active orchards, field, greenhouse etc.)	0	0	
• Surface water features (lakes, ponds, streams, rivers, etc.)	12	12	
• Wetlands (freshwater or tidal)	0	0	
• Non-vegetated (bare rock, earth or fill)	800	800	
• Other Describe: _____			

c. Is the project site presently used by members of the community for public recreation? ☐ Yes ☒ No
i. If Yes: explain: _____

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? ☐ Yes ☒ No
If Yes,
i. Identify Facilities: _____

e. Does the project site contain an existing dam? ☐ Yes ☒ No
If Yes:
i. Dimensions of the dam and impoundment:
• Dam height: _____ feet
• Dam length: _____ feet
• Surface area: _____ acres
• Volume impounded: _____ gallons OR acre-feet
ii. Dam's existing hazard classification: _____
iii. Provide date and summarize results of last inspection: _____

f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility? ☒ Yes ☐ No
If Yes:
i. Has the facility been formally closed? ☐ Yes ☒ No
• If yes, cite sources/documentation: Corrective Management Study (CMS) completed
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:
Corrective Management Study Completed
iii. Describe any development constraints due to the prior solid waste activities: no development in corrective Management Study Area until remediation is complete

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? ☒ Yes ☐ No
If Yes:
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:
Acid Tap Pit was closed in 2016. Solid Waste Management Units (SWMUS) 5-11, 5-22 S-18 P-14A and 5-23

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? ☒ Yes ☐ No
If Yes:
i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: ☒ Yes ☐ No
☐ Yes - Spills Incidents database Provide DEC ID number(s): CMS Area 915009
☒ Yes - Environmental Site Remediation database Provide DEC ID number(s): Brownfield C915199, C915198 and C915197
☐ Neither database
ii. If site has been subject of RCRA corrective activities, describe control measures: _____

iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? ☐ Yes ☒ No
If yes, provide DEC ID number(s): _____

iv. If yes to (i), (ii) or (iii) above, describe current status of site(s): All Brownfield Cleanup Program sites have been remediated or coverready. 7CMS SWMU'S already remediated and 35 pending remediation

v. Is the project site subject to an institutional control limiting property uses? ☒ Yes ☐ No

- If yes, DEC site ID number: _____
- Describe the type of institutional control (e.g., deed restriction or easement): Deed Restriction Pending Environmental
- Describe any use limitations: Ground water use in restricted and site use is limited to Easement
- Describe any engineering controls: slag and vegetative soil cover system commercial or industrial activity
- Will the project affect the institutional or engineering controls in place? ☐ Yes ☒ No
- Explain: _____

E.2. Natural Resources On or Near Project Site

a. What is the average depth to bedrock on the project site? 44.5 feet

b. Are there bedrock outcroppings on the project site? ☐ Yes ☒ No
If Yes, what proportion of the site is comprised of bedrock outcroppings? _____ %

c. Predominant soil type(s) present on project site: slag and soil fill 100 %

_____ %

d. What is the average depth to the water table on the project site? Average: _____ feet

e. Drainage status of project site soils: ☒ Well Drained: _____ % of site
☐ Moderately Well Drained: _____ % of site
☐ Poorly Drained: _____ % of site

f. Approximate proportion of proposed action site with slopes: ☒ 0-10%: _____ % of site
☐ 10-15%: _____ % of site
☐ 15% or greater: _____ % of site

g. Are there any unique geologic features on the project site? ☐ Yes ☒ No
If Yes, describe: _____

h. Surface water features.

i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)? ☐ Yes ☒ No

ii. Do any wetlands or other waterbodies adjoin the project site? ☒ Yes ☐ No
If Yes to either i or ii, continue. If No, skip to E.2.i.

iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency? ☒ Yes ☐ No

iv. For each identified regulated wetland and waterbody on the project site, provide the following information:

• Streams:	Name <u>Smokes Creek/South return Water Trench</u>	Classification <u>NYSDEC Class C/unclassified</u>
• Lakes or Ponds:	Name _____	Classification _____
• Wetlands:	Name _____	Approximate Size _____
• Wetland No. (if regulated by DEC)	_____	

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? ☐ Yes ☒ No
If yes, name of impaired water body/bodies and basis for listing as impaired: _____

i. Is the project site in a designated Floodway? ☒ Yes ☐ No

j. Is the project site in the 100 year Floodplain? ☐ Yes ☒ No

k. Is the project site in the 500 year Floodplain? small portion ☒ Yes ☐ No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer? ☐ Yes ☒ No
If Yes:

i. Name of aquifer: _____

<p>m. Identify the predominant wildlife species that occupy or use the project site: _____</p> <p>_____</p> <p>_____</p>	
<p>n. Does the project site contain a designated significant natural community? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p>i. Describe the habitat/community (composition, function, and basis for designation): _____</p> <p>ii. Source(s) of description or evaluation: _____</p> <p>iii. Extent of community/habitat: _____</p> <ul style="list-style-type: none"> • Currently: _____ acres • Following completion of project as proposed: _____ acres • Gain or loss (indicate + or -): _____ acres 	
<p>o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	
<p>p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	
<p>q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, give a brief description of how the proposed action may affect that use: _____</p> <p>_____</p>	
<p>E.3. Designated Public Resources On or Near Project Site</p>	
<p>a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, provide county plus district name/number: _____</p>	
<p>b. Are agricultural lands consisting of highly productive soils present? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>i. If Yes: acreage(s) on project site? _____</p> <p>ii. Source(s) of soil rating(s): _____</p>	
<p>c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p>i. Nature of the natural landmark: <input type="checkbox"/> Biological Community <input type="checkbox"/> Geological Feature</p> <p>ii. Provide brief description of landmark, including values behind designation and approximate size/extent: _____</p> <p>_____</p> <p>_____</p>	
<p>d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p>i. CEA name: _____</p> <p>ii. Basis for designation: _____</p> <p>iii. Designating agency and date: _____</p> <p>_____</p>	

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? ☐ Yes ☒ No

If Yes:

i. Nature of historic/archaeological resource: ☐ Archaeological Site ☐ Historic Building or District

ii. Name: _____

iii. Brief description of attributes on which listing is based: _____

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory? ☐ Yes ☒ No

g. Have additional archaeological or historic site(s) or resources been identified on the project site? ☐ Yes ☒ No

If Yes:

i. Describe possible resource(s): _____

ii. Basis for identification: _____

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? ☒ Yes ☐ No

If Yes:

i. Identify resource: Tift Nature Preserve

ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): _____

iii. Distance between project and resource: _____ miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? ☒ Yes ☐ No

If Yes:

i. Identify the name of the river and its designation: Buffalo River- Recreational

ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666? ☒ Yes ☐ No

F. Additional Information

Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification

I certify that the information provided is true to the best of my knowledge.

PRINT FORM

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

	Agency Use Only [If applicable]
Project :	
Date :	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) <i>If "Yes", answer questions a - j. If "No", move on to Section 2.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

2. Impact on Geological Features The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES <i>If "Yes", answer questions a - c. If "No", move on to Section 3.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached: _____	E2g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature: _____	E3c	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES <i>If "Yes", answer questions a - l. If "No", move on to Section 4.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	<input type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d	<input type="checkbox"/>	<input type="checkbox"/>

1. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
----------------------------------	--	--------------------------	--------------------------

4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquifer. (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t) <i>If "Yes", answer questions a - h. If "No", move on to Section 5.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c	<input type="checkbox"/>	<input type="checkbox"/>
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source: _____	D2c	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) <i>If "Yes", answer questions a - g. If "No", move on to Section 6.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in development within a 100 year floodplain.	E2j	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in development within a 500 year floodplain.	E2k	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k	<input type="checkbox"/>	<input type="checkbox"/>
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e	<input type="checkbox"/>	<input type="checkbox"/>

g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
----------------------------------	--	--------------------------	--------------------------

6. Impacts on Air

The proposed action may include a state regulated air emission source.
(See Part 1. D.2.f., D.2.h, D.2.g)

☒ NO

☐ YES

If "Yes", answer questions a - f. If "No", move on to Section 7.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO ₂) ii. More than 3.5 tons/year of nitrous oxide (N ₂ O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF ₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane	D2g D2g D2g D2g D2g D2h	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

7. Impact on Plants and Animals

The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. m.-q.)

☒ NO

☐ YES

If "Yes", answer questions a - j. If "No", move on to Section 8.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p	<input type="checkbox"/>	<input type="checkbox"/>

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	E3c	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source: _____	E2n	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source: _____	E1b	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q	<input type="checkbox"/>	<input type="checkbox"/>
j. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

8. Impact on Agricultural Resources The proposed action may impact agricultural resources. (See Part 1. E.3.a. and b.) <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES <i>If "Yes", answer questions a - h. If "No", move on to Section 9.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.	E2c, E3b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).	E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land.	E3b	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District.	E1b, E3a	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may disrupt or prevent installation of an agricultural land management system.	E1 a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland.	C2c, C3, D2c, D2d	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed project is not consistent with the adopted municipal Farmland Protection Plan.	C2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.) <i>If "Yes", answer questions a - g. If "No", go to Section 10.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
d. The situation or activity in which viewers are engaged while viewing the proposed action is: i. Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities	E3h E2q, E1c	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile 1/2 -3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) <i>If "Yes", answer questions a - e. If "No", go to Section 11.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on or has been nominated by the NYS Board of Historic Preservation for inclusion on the State or National Register of Historic Places.	E3e	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source: _____	E3g	<input type="checkbox"/>	<input type="checkbox"/>

d. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>
If any of the above (a-d) are answered "Moderate to large impact may occur", continue with the following questions to help support conclusions in Part 3:			
i. The proposed action may result in the destruction or alteration of all or part of the site or property.	E3e, E3g, E3f	<input type="checkbox"/>	<input type="checkbox"/>
ii. The proposed action may result in the alteration of the property's setting or integrity.	E3e, E3f, E3g, E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>

11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12.			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c	<input type="checkbox"/>	<input type="checkbox"/>
e. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.			
		<input type="checkbox"/> NO	<input checked="" type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

13. Impact on Transportation

The proposed action may result in a change to existing transportation systems.

☒ NO

☐ YES

(See Part 1. D.2.j)

If "Yes", answer questions a - f. If "No", go to Section 14.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action will degrade existing transit access.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may alter the present pattern of movement of people or goods.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

14. Impact on Energy

The proposed action may cause an increase in the use of any form of energy.

☒ NO

☐ YES

(See Part 1. D.2.k)

If "Yes", answer questions a - e. If "No", go to Section 15.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	D1g	<input type="checkbox"/>	<input type="checkbox"/>
e. Other Impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

15. Impact on Noise, Odor, and Light

The proposed action may result in an increase in noise, odors, or outdoor lighting.

☒ NO

☐ YES

(See Part 1. D.2.m., n., and o.)

If "Yes", answer questions a - f. If "No", go to Section 16.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may produce sound above noise levels established by local regulation.	D2m	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in routine odors for more than one hour per day.	D2o	<input type="checkbox"/>	<input type="checkbox"/>

d. The proposed action may result in light shining onto adjoining properties.	D2n	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.	D2n, E1a	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

16. Impact on Human Health

The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.)

☒ NO

☐ YES

If "Yes", answer questions a - m. If "No", go to Section 17.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	E1d	<input type="checkbox"/>	<input type="checkbox"/>
b. The site of the proposed action is currently undergoing remediation.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.	D2r, D2s	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	E1f, E1g E1h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	E1f, E1g	<input type="checkbox"/>	<input type="checkbox"/>
l. The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r	<input type="checkbox"/>	<input type="checkbox"/>
m. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

17. Consistency with Community Plans

The proposed action is not consistent with adopted land use plans.
(See Part 1. C.1, C.2. and C.3.)

☒ NO☐ YES

If "Yes", answer questions a - h. If "No", go to Section 18.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	C2	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a	<input type="checkbox"/>	<input type="checkbox"/>
h. Other: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

18. Consistency with Community Character

The proposed project is inconsistent with the existing community character.
(See Part 1. C.2, C.3, D.2, E.3)

☒ NO☐ YES

If "Yes", answer questions a - g. If "No", proceed to Part 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community.	E3e, E3f, E3g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may create a demand for additional community services (e.g. schools, police and fire)	C4	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing.	C2, C3, D1f D1g, E1a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources.	C2, E3	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action is inconsistent with the predominant architectural scale and character.	C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed action is inconsistent with the character of the existing natural landscape.	C2, C3 E1a, E1b E2g, E2h	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
